Such nano- and mico-level processes networked together potentially result in the macro-level anarchist social relations more commonly associated with anarchist thought. The statist state of mind is characterised by representation over and above direct experience, an attraction to domination and control, and a continual reliance on fear. Add to Wish List. SexualState-FormsinAction. AmazonGlobal Ship Orders Internationally. This applies to intimate relationships between two or more people and to the bigger picture of political and economic systems. In this paper, we propose an alternative based on practices of freedom and the role of love in subverting interdependent patterns of normativity and hierarchy.
