I did think to book kind dragged a bit in the middle though it made up for it in the end. Want to Read saving... I have read all of the series and this is one of the best.

FromtheNazialienconspiracytheorytomodernaliens,thisbookrunsall over I read it all the way through and may pick up another Event Group novel this was my first, and the characters were developed enough I'd like to read more about. The action is spectacularly cinematic, the characters compelling, and the story is a flat-out adrenaline rush that pits real-world, cutting-edge military technology against a literally out-of-this-world threat.
