The Impact of Reputation on Supply Chains: Our findings suggest that the exploitation of strategic information systems in the sense of achieving a sustainable competitive advantage requires establishing an organizational routine of cross-departmental interaction. Die Institute stehen vor der Herausforderung, die Prozesse intern zu optimieren und zu stan-dardisieren.

Moreover, it is instructive to note that the ability to focus on core competences. Ebenfalls nimmt die Industrialisierung der Finanzwelt stetig zu. The next research step will be an empirical test of the model.

The following research paper focuses on identifying possible new interfaces. The paper presents a comparative analysis of economies of scale, scope, and skill achievable by outsourcing financial processes in non-banks and banks based on two empirical studies conducted with Fortune 1, non-banks and Fortune banks in Germany. Strategic risks are also important and, to a lesser extent, performance risks, while psychosocial risks and privacy risks are not significant predictors.
