The only possible alternatives are either to abandon NHBD protocols or to maintain a scientifically untenable approach, pretending that NHBD are biologically dead. The heart and lungs are not important as basic prerequisites to continue life but rather because the irreversible cessation of their functions shows that the brain had ceased functioning. Soc Sci Med ; Talbot,DavidandAnthonyM. It seems that permanently unconscious patients have characteristics of both the living and the dead. Non heart beating organ transplantation: We are reasonably sure that asystole is spontaneously irreversible after a few minutes. HomeAboutHelpSearch.Jeffrey Kirby - - Journal of Clinical Ethics Yet, a major inconsistency dramatically emerges in declaring a patient dead on cardiovascular criteria and then proceeding to successfully transplant the heart.
