But often, employers are less bothered by applicants' degree field, and more concerned that applicants have "the right thinking skills and creative skills – and that they can apply themselves to the job at hand," says Isherwood. You can do both by being a undergraduate research opportunities program UROP supervisor.

Or just want a structured way to meet members of the MIT community? At the end, each team presents their solution. My summer at SMI has motivated me in my work in graduate school. Before SMI, I was focusing on both mathematics and physics as an undergraduate. My colleagues and I have had a wonderful time with the club sports in particular then I have looked into possibly researching this topic in the future. Although it has certainly had its ups and downs, these past six years of graduate school have been vastly more enjoyable than the four I spent as an undergrad.
