The semantic web has been a success and that's not about to stop. Today it is a reality.

Many large companies, public institutions and non-profit organisations share

No, I'd argue that, as admirable as the whole goal of the semantic web is, it's just not working in reality. The Role of Technology Some people will argue that you do not need technology to implement a Knowledge Management programme.

Wikiquote has quotations related to:

I prefer what I feel is a more useful definition: Another strategy involves individuals making knowledge requests of experts associated with a particular subject on an ad hoc basis pull strategy.
